EXPLANATORY NOTES

General Considerations

1. The following pages of itemized fees are not to be construed as either maximum or minimum charges but only as a general guide for services of average complexity, by which the individual physician dealing directly with his or her patients can set a proper and responsible value on the individual services that he or she provides. No physician is obligated ethically or otherwise to follow the Schedule; it is not binding on any physician and he or she has the right to deviate from it.
2. Physicians should be aware that it is professional misconduct to,
 - 1) Charge a fee that is excessive in relation to the services performed, and
 - 2) Charge a fee for a service that exceeds the fee set out in the then current Schedule of Fees published without informing the patient, before the service is performed, of the excess amount that will be charged¹.
3. The OMA Schedule of Fees is a product of a multiplier applied to the amount payable for each fee code listed in the May 1, 2014 OHIP Schedule of Benefits for Physician Services to calculate an amount payable for an uninsured clinical service. **The multiplier for the period January 1, 2019 to December 31, 2019 is 2.29 (2.29 x OHIP Fee = OMA suggested fee).**
4. For additional information on fee codes listed in this Schedule such as fee code descriptors, definitions and payment rules, refer to the current OHIP Schedule of Benefits for Physician Services.
5. The Schedule is revised in consultation with the Membership and the OMA Board of Directors.
6. Frank discussion with the patient regarding fees is recommended.
7. In cases requiring Fee Schedule interpretation, the opinions approved by the Board of Directors of the Ontario Medical Association, will prevail.

Principles of Ethical Billing

1. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.
2. Physicians who participate in the care of a patient are entitled to compensation commensurate with the services they render.
3. Physicians, when applicable, should acquaint the patient, or person financially responsible, with their obligations to those concerned with their care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure is being arranged.

¹ Section 1(1) paragraph 21 and 22 O. Reg. 856/93 under the Medicine Act; http://www.e-laws.gov.on.ca/html/regs/english/elaws_regs_930856_e.htm

EXPLANATORY NOTES

4. Each physician dealing directly with a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services and, when requested, send a receipt to the patient for all payments made.
5. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill.

Uninsured Medical Services

Uninsured medical services are not benefits of the Ontario Health Insurance Plan (OHIP) and may be charged directly to patient (or third party) at the discretion of the physician. The physician, whenever possible, should inform the patient or the person financially responsible for the patient about such charges prior to the services and should make an appropriate record (as required) of the uninsured service provided. The fee for uninsured medical services should reflect, as circumstances dictate, some or all of the following factors:

- a. Nature and complexity of the matter.
- b. Experience and expertise of the physician.
- c. Time spent with and/or on behalf of the patient.
- d. The cost of materials not included in the fees for insured services.

Third Party Services

Third Party services are defined as any service (including an annual health exam) received by a patient who, in whole or in part, is necessary for the production or completion of a document or transmission of information to satisfy the requirements of a party other than the patient.

(Note: “transmission of information” also includes situations in which physicians provide information to their patients during the medical assessments. The medical assessments are considered third party requests when patients use this information to complete a third party requested form. If a physician is of the opinion that a service (e.g., assessment) is also medically necessary then it would be considered an insured service billable to OHIP.)

For a list of third party services and the applicable exemptions, refer to the 2019 Physician’s Guide to Uninsured Services published by the Ontario Medical Association. The Guide also contains the current (2019) Scale of Grading and Remuneration.
